

Aquantia to Present at the 14th Annual Needham Growth Conference

MILPITAS, CA – January 9, 2012 – [Aquantia](#), the leading developer of High Speed Ethernet connectivity solutions for cloud computing and large scale data center deployments, announced today that it will present at the 14th Annual Needham Growth Conference on January 11, 2012, in New York City.

“2012 is shaping up to be a significant milestone for Aquantia as our strategy to focus on the Romley generation of servers and its ecosystem for Cloud Computing and mega data centers with our industry-leading 10GBASE-T solutions start bearing fruits in the coming quarters” notes Aquantia president and CEO Faraj Aalaei. “We are very pleased to share our vision for the company and the market dynamics with the influential decision-makers at the Needham Growth Conference.”

The Needham Growth Conference will be hosted at the New York Palace Hotel, New York City, from January 10 to 12, 2012.

Faraj Aalaei will present at 11:40am on Wednesday, January 11, room Campbell.

About Aquantia

Aquantia’s 10Gigabit Ethernet ICs are at the heart of cloud computing and large-scale data center deployments taking place today. This market segment is going through a very fast transition, with astounding growth in the total amount of compute power and the move to faster connectivity. This has in turn led to a new paradigm for 10Gigabit Ethernet all across the ecosystem. With its 10GBASE-T silicon products, Aquantia delivers to its OEM customers the most versatile and highest performance 10Gigabit Ethernet connectivity solution while providing lowest Total Cost of Ownership (TCO). Located in Silicon Valley, Aquantia is a venture-backed company, with strong tier-1 VCs and strategic investor support. For more information, visit www.aquantia.com.
